NETWORK

VPN

Only TU members with a tubIT account have access to VPN.

VPN establishes a secure connection between the TU intranet and your own device.

Significant set-ups and configurations are required before dial-in with VPN-Clients.

Further information and instructions on VPN are available under the following link:
http://www.tubit.tu-berlin.de/menue/dienste/internet/vpn/parameter/en/

Access to the network socket

A further access to the TU network can be achieved with your own device (laptop) through the following method.
The connection can be realised with a TwistedPair-cable (TP-cable) at one of the 200 network sockets at the central library.

If not available USB-sticks and TP-cables can be borrowed for a fee at the alpha-Service Point (1st floor).

SUPPORT

Reference notes and instruction manuals for the computer workstations are displayed at the information desk.

Authentication service:
Mon - Fri 2 pm - 3 pm

tubIT account:
Mon - Fri 8 am - 6 pm
phone   (030) 314-28000
e-mail   tubit@tu-berlin.de

Further information on tubIT service:

TU MEMBERS

TU members need a tubIT user account
(username and password).

UDK MEMBERS

UdK members have to register at the DVOrg/OASE department
for a personal online account.

MEMBERS OF OTHER UNIVERSITIES OR INSTITUTIONS

For members of other universities or institutions access to one
of the following Networks is necessary: DFN-Roaming, edu-
roam or the CASG-Net.

EXTERNAL USERS

Computer workstations provide an access to the internet for
library users only (a library card is required).

© Gerd Altmann / pixelio.de
www.pixelio.de

To use all the available functions at every internet- or worksta-
tion, it is necessary to register.

Thin Clients (Network-PCs)

At the Thin Clients a limited access to the internet and UB-
services is available only with a guest account.

Requirements for the unlimited access to the internet can be
found under the heading "USERGROUPS / REQUIREMENTS".
The set-up of the online account is possible at every worksta-
tion which supports the authentication process.

Instructions for the authentication process are available at the
following link:
http://www.ub.tu-berlin.de/index.php?id=2089

Unlimited internet access is also available at the iMac worksta-
tions.

Directions can be found at the following link:
http://www.ub.tu-berlin.de/index.php?id=106

Mobile devices

The access to the wireless LAN is possible with notebooks and
smartphones.

The supported systems as well as the instruction manuals and
necessary software can be found at the following link:
**http://www.tubit.tu-berlin.de/wlan/zugang_und_anleitungen/
parameter/en/**

Please notice:
To use the WLAN that it is necessary to save the certificates on
the computer before installing them (click right on the
certificates).

An overview on the network coverage can be found at the
following link:
**http://www.tubit.tu-berlin.de/wlan/netzabdeckung/parame-
ter/en/**

Wireless LAN - FAQ

Answers to the most frequent questions are available at the
